## Penn state masters degrees

We offer over 300 graduate degree programs across six campus locations plus our online World Campus, catering to graduate and professional students. Our research expenditures are significant. Browse through our various graduate programs and certificates offered at Penn State. For a complete list of programs, please refer to the Graduate Bulletin. As the J. Jeffrey and Ann Marie Fox Graduate School, we prioritize graduate student success and program excellence. We support over 300 graduate degree programs across the University, including research and professional master's and doctoral degrees, as well as more than 200 graduate major fields of study. In addition, our postbaccalaureate and graduate credit certificates are numerous. Our student support includes professional development, wellness, and equity opportunities, plus we work with campus partners to coordinate offerings specifically for graduate students. With over 190 graduate major programs, several stand-alone graduate minor programs, and around 100 graduate and post-baccalaureate certificate programs available, you can design your own unique academic path at one of the world's leading research institutions. Our graduate programs are offered under the J. Jeffrey and Ann Marie Fox Graduate School, with professional programs also available at Penn State Law and the College of Medicine. Holding a graduate degree can increase your earning potential, expand your knowledge and skill set, let you tackle complex problems, foster specialized expertise and real-world experience, and give you a competitive edge. As a special mission campus of Penn State, we combine academic excellence with personal attention, offering opportunities to network and learn from area professionals. You'll find various programs in engineering and technology, business, and more. Join us at an upcoming admission event or request a one-on-one appointment to discuss program details and your professional and personal goals. For any questions or more information, feel free to reach out to us at [email protected] or 610-648-3248. As you embark on a career journey with Penn State, leverage their renowned academic offerings and expert faculty to develop your expertise. Explore over 200 degrees and certificates, including graduate, law, and medical programs. Discover the impact of graduating from Penn State by reading inspiring stories like Corey Wheeler's, who credits his Master's degree in Strategic Management and Executive Leadership for giving him a sense of accomplishment, pride, and fulfillment. Penn State World Campus offers more than 100 accredited master's degrees and graduate-level certificates, all taught by experienced faculty. Their online programs are identical to their highly successful on-campus counterparts, providing the same level of academic quality you expect from Penn State.
